Mc GREGOR'S PRIMROSES
WINTER BLOOMING FOR DESCRIPTION
AND PRICE SEE PAGE 1.

The American Banner

Set of New Chinese Primroses, Red, White and Blue

These new varieties at 15 cents each,
or the three for 35 cents.

Mutabilis—A splendid novelty in the Primroses, introduced by the well-known European grower, Ernst Benary. The flowers are a pretty shade of bright red, very large, and of a peculiar primrose fragrance. This is a variety that should be in every collection of winter plants. Price, 15 cents each.

Alba Magnifica—Another of Benary's introduction, which in growth and size of flower is counterpart of the above variety. The flowers are pure white, of a large size, and borne on a strong truss. The introducer describes it as "One of the finest existing Chinese Primroses." Price, 15 cents each.

Coerula—The finest of all the blue Primroses. This is the first blue variety we have catalogued, and it should not be omitted from your list of plants. The flowers are very large and deeply fringed. It is a good grower and will be sure to give satisfaction. Price, 15 cents each.

Five of the Choicest Violets

Price, 10 cents each, the set for 40 cents.

NEW SINGLE VIOLET, Princess of Wales

This variety is far ahead of any other single Violet known. The grand single flowers of a true violet-blue color that does not fade, are of round, symmetrical form, almost as large as pansies, and of the richest, most delicious fragrance.

SWANLEY WHITE

This is a sport of the popular and well known Violet, Marie Louise, and is in every way equal to its parents, having the same growth, the same freedom of flowering, the same perfect perfume, and the individual flower equally as large and of the purest white.

LADY CAMPBELL

One of the best of the double purple Violets, similar in growth and shape of flower to Marie Louise, but color a little lighter. Very good for cut-flower planting.

NEW SINGLE VIOLET, CALIFORNIA

This beautiful violet has created a decided sensation. Buyers prefer it to all others. It is entirely hardy and of the richest dark blue and very fragrant.

HARDY DOUBLE ENGLISH VIOLET

This Violet is entirely hardy, perfectly double a deep violet-purple color and most deliciously fragrant. Will grow and bloom in any garden, and in any situation. Nothing is more appropriate for cemetery plots than the hardy Double English Violet.

McGregor's New

Choice Chinese Primroses

Price, 10 cents each, any three for 25 cents, or the set of seven varieties for 50 cents.

L. Etincelante—Deep blood red, very striking, see front page of cover.

Mt. Blanc—Large flower, pure white, pale green foliage.

Kirmesina Splendens—Bright carmine-pink, with distinct yellow eye.

Coccinea—Bright red, large flowers, beautifully fringed.

Striata—Flowers white, striped and blotched purple-red.

Alba Fimbriata—Clear snow white' showing yellow center.

Murmorata—Bright rose pink, large fine flowers, very distinct foliage.

Four of Our Choicest Rex Begonias

The Favorite House Plant

Price, 15 cents each, 4 for 50 cents.

New Rex Begonia

COUNTLESS LOUISE ERDODY No. 1

The leaf has a metallic luster, dark-silvery in the center; shading to coppery rose toward the margin. The striking peculiarity which distinguishes it from all other Begonias, consists in the fact that the two lobes of the base of the leaf do not grow side by side, but one of them winds in a spiral-like way until in a full grown leaf there are four of these twists lying on top of the leaf nearly two inches high.

LORD PALMERSTON No. 2

One of the best and easiest to grow of all the Rex Begonias. The leaves are extra large with a dark bronze center, silver band and irregular bronze border, blotched and specked into the silver. The edge of the leaf is fluted and irregular. Under side a pea green with red veins. Very effective.

LESOUDSI No. 3

This is the finest and largest of any of the Rex family. It is impossible to describe in words the beautiful markings of this magnificent Begonia. It is a cross between Begonia Diadema and a Rex variety, but retains in a marked degree the Rex character. We consider this the finest of all the Rex family, both in size of leaf and rich coloring.

MD. TREVE No. 4

One of the most distinct and striking of all Rex Begonias. Very highly colored, especially when the light shines through the leaf, which makes a bright red. The star-shaped center and the narrow border of the leaf is a reddish green, dotted with silver spots and the balance silvery white. A fine Begonia of the large leaf variety.

BULBS FOR WINTER FLOWERING

After careful testing, consultation with our Holland bulb growers, and painstaking study, we have succeeded in forming a collection of winter-flowering bulbs, which can easily be brought into bloom at Christmas time by any amateur. This collection will give you a window garden full of brilliant, fragrant and delicate flowers for several weeks. Buy the bulbs early in the fall, and plant them at once in pots or boxes. Water them abundantly immediately after planting, cover the tops of the pots with excelsior and place in a dark closet or cellar for four or five weeks until the roots are well grown. Bring them out to a sunny window three or four weeks before the blooms are desired, as the tops will grow strong and rapidly after the roots are well grown.

These directions apply to the Hyacinth, Tulips and Narcissus, but for Chinese Sacred Lily see directions on page 12

SPECIAL OFFER ONE EACH OF THE TWELVE NAMED DOUBLE HYACINTHS FOR \$1.00, POSTPAID.

UN-NAMED DOUBLE HYACINTHS IN SEPARATE COLORS

These are selected unnamed sorts, and are chiefly used for outdoor planting, but can also be used for pot culture, although we advise using the named varieties for house culture. These are just what is wanted for massing in borders or display beds. These bulbs are the product of one of the best growers in Holland, and are good size, solid, and will produce splendid flowers. We offer them in the following separate colors:

PURE WHITE	BLUSH WHITE	ROSE	PINK
RED	LIGHT BLUE	BRIGHT BLUE	
	PURPLE	YELLOW	

Price, 5 cents each, 60 cents per dozen, by mail, postpaid.

EXPRESS OFFER:

By express, 50 cents per dozen for any of the above Double Hyacinths in separate colors.

For \$3.50 we will send by express (purchaser paying the charges) 100 Hyacinths in any color or colors, single or double, which will make a bed of fifteen feet in circumference or five feet in diameter composed of five rows planted six inches apart. If your bed should be of another shape or larger, and would require more than 100, we will offer them at the same rate.

Fine Named Single Hyacinths

Price, Your Selection, 10 Cents Each.

The Single Hyacinths by many are not so highly thought of as the double, yet they are to be preferred for bedding, as the truss is not so heavy and consequently does not fall over, but stands erect. While the individual single bells are not quite so pretty as the double, the grace of the erect truss makes it better for pot culture also. We have revised our list and can safely say we offer you the cream of Single Hyacinths now grown.

A New List of Choice Varieties

SINGLE PURE AND TINTED WHITE

La Belle Blanchisseuse—Extra large waxy white bells; an excellent variety and choice for cemetery planting.

L'Innocence—One of the best of the new pure white Hyacinths; very broad loose truss of immense bells; very fine.

Grandeur a Merveille—Finest blush white; a graceful, large truss exquisitely tinted creamy pink.

SINGLE RED, ROSE AND PINK

Pelissier—An early single dark crimson scarlet, compact spike; excellent for bedding and pot culture.

Maria Catharina—The finest brilliant red Hyacinth grown; large spikes of a strong glowing color.

Rose Amaranth—A beautiful light rose pink. A new variety of a charming new color; a strong grower.

Moreno—Bright waxy pink; very large truss and bells; splendid sort for pots.

Rosalie—A delicate silvery pink; very early; one of the finest sorts.

SINGLE BLUE, LAVENDER, PURPLE

Marie—A rich bright purple, the darkest of the single Hyacinths; fine in connection with the light colors.

Grand Maitre—Very large spikes of clear blue; one that we can recommend for any purpose.

La Peyrouse—An unusual sort with sky-blue bells with graceful spikes of great size.

SINGLE YELLOW

Anna Caroline—The deep yellow Hyacinth; one of the best of the yellows for pot culture or bedding.

SPECIAL OFFER One Each of the 12 Named Single Hyacinths for \$1.00 Postpaid.

Un-Named Single Hyacinths in Separate Colors

We recommend single-flowering Hyacinths for bedding as they hold their blooms more erect and give much more satisfactory results. You can do no better if you want a fine display for a small amount of money than to order a goodly lot of the following splendid bulbs. We offer these fine Single Hyacinths in separate colors as follows;

PURE WHITE	BLUSH WHITE	ROSE	PINK	RED
LIGHT BLUE	BRIGHT BLUE	PURPLE	YELLOW	

Price, 5 cents each, 60 cents per dozen, by mail, postpaid

SINGLE EARLY TULIPS

Tulips are the most satisfactory of spring flowering bulbs. They are extremely hardy and of easy culture, blooming as freely and producing as fine flowers in a confined town garden as in a more favored place. Double and Single Tulips, when associated together and planted in front of shrubs, maintain a longer display than if either are separately planted. One of the prettiest ways to plant them is in the sod next the foundation of the house where they will come up and bloom year after year with no care. All the varieties named below are well adapted for bedding and pot culture, especially the Duc Van Thol sorts, which can be forced into bloom by Christmas with very little trouble.

A Page of Choice Winter Flowering Roses

The Beautiful White Forcing Rose, WHITE MAMAN COCHET

The finest Rose of the year. Like its parent, the growth is vigorous, with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet. Price, 15 cents each; large two-year-old plants, 35 cents each.

STAR OF LYON—Etoile de Lyon

This magnificent Tea Rose is a rich golden yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold. Price, 10 cents each; large two-year-old plants, 30 cents each.

MARIE VAN HOUTTE

Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy crimson; occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms profusely, and is most deliciously scented. Price, 10 cents each; large plants, 25 cents each.

The Grandest of All, THE METEOR

A velvety red ever-bloomer of the deepest glowing crimson; as fine as a hybrid. Flowers of medium size, very double and slightly recurving. A beautiful open Rose. A free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety red Rose yet produced. Grand, both in bud and flower. Price, 10 cents each; large two-year-old plants, 25 cents each.

New Tea Rose, BRIDESMAID

Here we have a new Rose, a sport from that old standby, Catherine Mermet. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur and more cut bloom is sold by the flower dealer than any pink Rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright—and it is the same color all the time under every condition of weather and surroundings. Price, 10 cents each; large two-year-old plants, 30 cents each.

White Tea Rose, THE BRIDE

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extremely hot weather it becomes a pinkish white, at other times a beautiful pure white. Price, 10 cents each; large plants, 25 cents each.

SOUV. DE PIERRE NOTTING (Tea)

This variety is a seedling of Marechal Niel and Maman Cochet, with beautiful closely set foliage and a strong, sturdy habit of growth. Color orange yellow, bordered in carmine rose. Promises to prove very popular. Has received not less than six gold medals and prizes. Price, 15 cents each; large two-year-old plants, 30 cents each.

MADAME PIERRE GUILLOT

The most attractive and showy Tea Rose of recent introduction. It throws up numerous strong shoots, terminating in buds that for beauty surpass many famous Roses. The buds are large, very double, creamy white, each petal heavily bordered with bright rose. Price, 10 cents each; two-year-old plants, 35 cents each.

KAISERIN AUGUSTA VICTORIA

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. This Rose combines both these good qualities. Color a pure snowy white. Price, 15 cents each; two-year-old plants, 35 cents each.

THE QUEEN

It is pure snow white, makes good, finely formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet, and has proved valuable both for forcing and open-ground planting. We recommend it for extended trial, as it will be found a valuable acquisition to our list of pure white ever-blooming Roses. Price, 10 cents each; two-year-old plants, 25 cents each.

MAMAN COCHET

It is a vigorous grower, with beautiful foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. It is of the largest size, and the flower is built up or rounded, and very double. The color is a deep rose pink, the inner side of the petals being a silvery rose, shading and touched with golden yellow. Price, 10 cents each; two-year-old plants, 35 cents each.

New Tea Rose,

MADemoiselle FRANCISKA KRUGER

The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. In its shadings of deep coppery yellow it stands unique and distinct from all others. The flower when open is of good size and very symmetrical. Price, 15 cents each; large plants, 25 cents each.

PERNET'S TRIUMPH

The flowers are extra large, having broad, thick petals and long, tapering buds, with delicious tea fragrance. Color a fine, clear magenta red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 10 cents each; two-year-old plants, 35 cents each.

New Rose, BESSIE BROWN

This new Rose is considered one of the finest of the Roses of late introduction, and is well worthy the place it occupies among Roses. It is of the Hybrid Tea class, and will stand frost if slightly protected. Blooms are of enormous size, of heavy substance, and are perfect in shape, lasting splendidly when cut. The color is snowy white, faintly flushed and tinged with pink. A fine, strong, free bloomer. Price, 15 cents each; two-year-old plants, 35 cents each.

Our Zero Collection of 12 Hybrid Tea Roses

For 50 cents; Large two-year-old Plants, the Twelve for \$2.00

MADAME LAMBARD

This variety is planted in the South as much as any Rose on the market. A first-class Rose for garden planting or pot culture, habit of growth is vigorous and blooming quality very free. The color is a beautiful shade of rosy bronze, changing to salmon and fawn, shaded with carmine. Very sweet scented. An exceptionally fine variety. Price, 10c each; two-year-old plants, 25c each.

MADAME SCHWALLER

The color is a bright rosy-flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A rose from which we hear very flattering reports from all directions. This grand Rose has more perfume than any that we offer. Try it. It is magnificent. Price, 10c each; large two-year-old plants, 25c each.

The Famous Hardy Ever-Bloomer, CLOTHILDE SOUPERT

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities. Price, 10c each; large plants, 30c each.

BURBANK

Another fine Rose for open-ground planting; an easy variety to grow, with pretty foliage, long, stiff stems, and very hardy. Flower a clear pink, deep, with large petals. A fine variety for any purpose. Price, 15c each; large, two-year-old plants, 25c.

MARIE GUILLOT

This beautiful Tea Rose continues in popular favor, and still maintains its position as one of the best white Roses of its class. Flowers of an unusual style, entirely double to the center; very sweet-scented. Habit of growth the best. Price, 10c each.

JAMES SPRUNT

A good Rose for this collection. The flowers are of a large size, and a deep cherry red in color. A very free bloomer and of vigorous growth. With a little protection it will stand the cold winters. Price, 10c each; two-year-old plants, 25c each.

DUCHESS DE BRABANT

A bright china Rose, with coppery-yellow center, ends of petals suffused with carmine. A charmingly beautiful combination of coloring, as each color blends nicely with the other. Price, 10c each.

MARIE LAMBERT—OR WHITE HERMOSA

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable. Price, 10c each.

MARIE VAN HOUTTE

Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy-crimson; occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms profusely, and is most deliciously scented. Price, 15c each; large plants, 25c each.

PINK HERMOSA—THE OLD FAVORITE

Everybody knows this famous variety. As hardy as an oak, and always covered with its elegant clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 15c each; large two-year-old plants, 30c each.

CRIMSON HERMOSA—QUEEN'S SCARLET

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery scarlet, a color seldom seen in Roses. Indeed, a bed of this Rose produces a mass of red equal to a bed of Geraniums. It is planted everywhere on account of its color and freedom of bloom. None better. Try it. Price, 15c each; large two-year-old plants, 30c each.

The Superb Yellow Rose,

MARECHAL NIEL

The most popular of all. A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from Southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. Price, 15c each; two-year-old, 35c; fine three-year-old plants, with long branches, 50c each.

Five Splendid Hardy Climbers

Philadelphia Rambler

It differs from Crimson Rambler in three important points—the color is deeper and more intense; the flowers are perfectly double to the center, very durable and of fine substance; the blooms are almost entirely free from the faded look often found in Crimson Rambler. It is very free both in growth and bloom, and will be found a splendid addition to the Crimson Rambler section. **Price, 10 cents each; three for 25 cents; two-year-old plants, 30 cents each; strong three-year-old plants, 50 cents each.**

Crimson Rambler

This plant is of a very vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed to the end, showing none of the objectionable purplish tint so common in crimson Roses. The flowers are produced in great pyramidal panicles, or trusses, each carrying from thirty to forty blooms. One of its best features is that it will stand the most severe winter without protection. **Price, 10c each; large two-year-old plants, 30c each; strong three-year-old stock, 50c each.**

Dorothy Perkins

Beautiful shell pink. A rapid grower, frequently developing shoots from ten to fifteen feet long in one season. Hardy, withstanding the severest winters without injury. Norfolk Island Pine

As a decorative plant for the house this is one of the handsomest and most serviceable. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. Our importation of these this year was exceptionally large and fine selected stock, especially in the medium size, for which there is always a demand. Price, nice plants, 12 to 15 inches high, three tiers, 85c; large plants, \$1.25.

Two of the Most Popular House Plants.

ASPARAGUS SPRENGERI

When introduced, at a high price, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with prominence. Used in decorations, as, for example, in the decorations of mantels, nothing can equal it. It is also a handsome thing for ferneries and hanging baskets. Price, 10c each; three for 25c; large plants, 25c each.

ASPARAGUS PLUMOSUS NANUS

One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. Price, nice plants, 15c each; two for 25c; large plants, 25c each.

Elegantiissima or Tarrytown

ELEGANTISSIMA OR TARRYTOWN

(*Nephrolepis Pierstoni*)

A sport of the popular *Nephrolepis Pierstoni* Fern. Much more beautiful, and an improvement over the *Pierstoni*. Is more dwarf and compact, the fronds broader and only half the length. The small side pinnae, or leaflets, are subdivided into perfect miniature fronds; the side pinnae stand at right angles to the midrib of the fronds, on edge instead of flat, giving both sides of the main frond the same beautiful appearance. It is impossible to conceive of the beauty and grace of this wonderful Fern from description—must be seen to be appreciated. Price, nice plants, 50 cents each. Fine Specimens, \$1.00.

WHITMANII

They are graceful beyond description—feathery, plummy, nothing describes them better than "Ostrich Plumes," which they very much resemble. The habit of the plant is grace personified. The fronds arch over in wavy irregularity delightful to the eye. Price, strong young plants, 20 cents each; large, handsome plants from five-inch pots, 50 cents each.

Price, strong plants, 35 cents each.
